Microbiological Water Purifier™

Peace of Mind
 Safer, Better Tasting Water,
 Anytime, Anywhere

Model: CMWP2-CMF

The CASCADIAN® CMWP2 water treatment system contains a patented **State of the Art Microbiological Filter**. This filter has been independently tested and certified to remove disease causing microorganisms from water, including bacteria, viruses and protozoan cysts.

Where these water contaminants may not be in your water at all times, it provides a level of security in the event there is a short term water concern such as while traveling or a boil alert.

This filter has also been tested and certified to reduce chlorine tastes and odors from the water providing great tasting water in addition to the comfort in knowing you have the protection of the Microbiological Filter.

Tested and Certified

Features:

- **Two Stages of Filtration**
 - 5-Micron Sediment Filter: Reduces dirt, sand, and rust
 - Purifier/Carbon Block: Patented two stage filtration reduces chlorine tastes and odors, and then removes Virus, Bacteria and Cysts
- **High Flow Rate**
 - Continuous 0.5 gallons per minute
- **Compact Size**
 - Fits almost any space
- **Long Filter Life**
 - 600 gallons or 6 months
- **Automatic Filter Monitor**
 - Built-in filter monitor flashes green light when water is safe and flashes red light when filters need replacing (with chrome monitor faucet only)
 - No more guessing when to replace filters. The monitoring faucet indicates when it is time to service the purifier unit (long life battery included)
- **No Electricity Required**
 - Filter monitor powered by long life common watch battery
- **Easy To Install**
 - Faucet mounts from the top of the sink or counter
 - All hardware included for standard installation
 - Color coded tubing
- **Patented State of the art Microbiological interceptor traps and removes virus, bacteria and cysts**

Benefits:

- **Removes (not just kills)**
 - 99.999999% Bacteria
 - 99.9999% Virus
 - 99.99% Protozoan Cyst
- **Activated Carbon Block**
 - Improves water tastes and odors
 - Reduces harmful chlorine tastes and odors
- **Essential Minerals Remain in Water**
 - Leaves essential minerals such as calcium for healthy water
- **Independently Certified as a Purifier by the National Sanitation Foundation and California Department of Health**
- **Effective even after extended periods of non-use**
- **Manufactured by Watts® a trusted name for decades.**
- **Easy Safe Water without hassle and inconvenience of buying, handling storing, dispensing or disposing of typical purified water bottles or dispensers**

CERTIFIED FOR	% REDUCTION
Bacteria	99.9999%
Virus	99.99%
Cysts	99.99%
Cryptosporidium	99.99%
Entamoeba	99.99%
Giardia	99.99%
Toxoplasma	99.99%

REMOVES:	
- Salmonella	- Virus (enteric)
- E-coli	- Legionella
- Cholera	- Giardia
- Hepatitis A	- Cryptosporidium
- Norwalk	- Entamoeba
- Toxoplasma	and more...

Operational Parameters:

This system is intended to be installed on municipal or well water on the cold supply line only.

	Maximum	Minimum
Operational Temperature	100°F (37.8°C)	40°F (4.4°C)
Operating Pressure	85 psi (5.98 kg/cm ²)	20 psi (1.406 kg/cm ²)
pH Parameters	10	5
Flow Rate	0.5 GPM @ 60 psig	

Recommended Installation Tools:

- A small knife
- Variable speed drill
- 1/8" (3.0 mm), 1/4" (6.4 mm) and 7/16" (11.0 mm) drill bits
- Saw or punch to create 1" to 1-1/4" hole to mount the faucet.
- 1/2" and 5/8" open-end wrenches (or adjustable wrenches)
- Phillips screwdriver

Options:

- With chrome standard or monitor faucet
- With designer faucet (order separately)
- Without sediment filter (single sump)
- With ice maker adapter kit
