### REMOVAL of ORGANICS

- The unique OrganicTRAP™ media removes naturally occurring organic substances including tannins that foul standard media and render them useless.
  - The OrganicTRAP™ media has unique properties that
    - Give it a very high operating capacity for even the toughest of applications.
    - Minimize or even eliminate problems with low pH product water as part of the treatment process.
- a) \*Service flow rate affected by water chemistry.  
 b) Additional treatment may be required. Consult with CASCADIAN® for recommendations and sizing assistance.  
 c) Ask your water treatment professional about complete solutions from CASCADIAN®.
